Because you can never have too many dice...
Founded in 1987, Chessex™ has had a long history of manufacturing gaming accessories with an emphasis on dice. Our goal has always been to provide quality gaming accessories at a fair price.

Conventions

One of our major goals is to exhibit at as many conventions as possible. Although our catalog is a good representation of our range, photos are never as good as seeing the actual products. We are also interested in seeing you, our customer, and hearing what you have to say concerning our products. Check our website to see when we will be at a convention near you!

Reversible Battlemats™, Megamats™ and Mondomats™
were first introduced in 1981 and are very useful for nearly every RPG and miniature game available today. All of the mats are reversible with squares of one size on one side and hexes of the same size on the other as illustrated here.

**Battlemats™**
23½" x 26" (60cm x 66cm)
1" Squares and
1" Hexes (25mm) . . . CHX 96246
1½” Squares and
1½” Hexes (38mm) CHX 96257

**Megamats™**
34½" x 48" (88cm x 122cm)
1” Squares and
1” Hexes (25mm) . . . CHX 97246
1½” Squares and
1½” Hexes (38mm) CHX 97257

**Mondomats™**
54” x 102” (137cm x 259cm)
1” Squares and
1” Hexes (25mm) . . . CHX 98246
1½” Squares and
1½” Hexes (38mm) CHX 98257

**Mat Markers**
4-Pack (red, green, blue, black) . . CHX 03154
Single Black Marker . . . .CHX 03159

Water-based overhead-projection markers work best on our vinyl mats as they are designed for plastic. DO NOT use grease pencils, permanent markers, or dry erase pens; the vinyl surface is too porous to allow for easy removal. It is recommended to first test any new pen on a small area, such as the border, and wait at least 30 minutes before wiping off to ensure that color wipes off properly. Often the colors that stain are not constant due to small changes in the manufacturing of the markers, so it is good to do this test whenever you get a new pen. We recommend the Staedtler, brand markers. Please note that red markers from any manufacturer tend to stain quicker than other colors, so use sparingly and mainly for highlighting. This applies to the red pen included in the Staedtler, 4-pack.
Figure Boxes are made of durable polypropylene with secure latches and long lasting hinges. The soft pre-cut foam protects varying sizes of painted figures and are an ideal method of storage and transportation of your miniatures.

**Large Figure Storage Box:**
Box Size: 17 1/2” x 7 1/2” x 3 3/8”

CHX 02850
80 figure capacity for 25mm humanoids*

Cut out size:
1 1/4” x 1” x 9/16”

CHX 02851
56 figure capacity for larger 25mm figures*

Cut out size:
1 1/4” x 2” x 9/16”

CHX 02852
40 figure capacity for monster-sized (larger) figures*

Cut out size:
1 1/4” x 1” x 1 1/2”

CHX 02860
14 figure capacity for 25mm humanoid-sized*

Cut out size:
1 1/2” x 1 9/16”

CHX 02869
3 uncut layers of foam for use with 25mm humanoid-sized figures*

Cut-it-yourself size

Small Figure Carrying Cases
are a great way to transport just enough figures for that day’s game. You can also modify the pre-cut foam inserts and store your painting supplies!

Box Size: 10 5/8” x 4 5/8” x 1 3/4”

Small Figure Carrying Cases
are a great way to transport just enough figures for that day’s game. You can also modify the pre-cut foam inserts and store your painting supplies!

Box Size: 10 5/8” x 4 5/8” x 1 3/4”

You can modify the pre-cut foam inserts in all of our storage boxes to make spaces for even larger figures.

*Figures, mat and other accessories pictured are not included.
We also offer a great range of **Gaming Accessories** to satisfy the needs of every gamer. These extras make great gifts for the gamer who has it all!

### Counter Storage Trays

(7⅛" x 11 ¼" x 3 ⅜")

The Chessex counter tray can hold up to 800+ ⅜" counters and is designed to fit into nearly all games including the old Avalon Hill bookshelf game boxes. The lid is attached to the tray and will open up and lie flat. Five contact points help assure the lid to stay closed even if dropped. The specially designed 16 angled compartments add to the ease of counter removal. The compartments are shallow enough so the counters will not flip when moved. The trays nest for more compact stackability. Three trays stacked measure 1 ½" tall.

**Single Tray** .............. CHX 02750

### Tubed Gaming Stones

(approximately 20 stones per tube)

**Dice Boot™**

Tired of dice rolling off the table? Tired of games being disrupted by rogue dice causing tabletop mayhem? Tired of lugging around a tree stump you call a dice tower? Tired of trying to find table space for a box lid to roll dice into? Then our Dice Boot™ is for you!

The Chessex Dice Boot™ keeps dice rolling to a restricted play area so as to prevent the dice from rolling off the table and disrupting game piece placement. The Dice Boot™ also offers substantial advantages over standard dice towers in size, durability, price, transportability, and resistance to damage. The toe (end piece) can be removed to allow the dice more room for travel while still keeping the dice from roaming wildly.

The Dice Boot™ is made of clear, scuff-resistant polycarbonate and can be assembled and disassembled time and time again. Disassembly and packing in its slim container is advantageous for travel and storage, either packed in a game box or tossed into your game bag.

For more information on this popular product, please visit our website for the Dice Boot™ Video.

**Dice Boot™** ........................................................ CHX 00023

www.chessex.com
Dice Holder™ Jewelry  Customers have asked us many times to make jewelry out of our dice. We thought the only way we could attach the die to the jewelry would ruin the die. Also, due to our wide spectrum of shapes and colors, we could not figure out a way to narrow the range to make the product viable in the marketplace. Lo and behold, Siltoys, a company in Italy, came up with a unique design concept that solves both of these problems. It’s called Dice Holder™ jewelry. The basic concept is that the jewelry piece which holds the die is itself held together by small flexible O-rings. These O-rings are strong enough to hold the die firmly in place while also allowing the die to be swapped out. Not only does this save the die from ruin, it also allows the owner to significantly change the appearance of the jewelry whenever the mood suits them. Each jewelry piece is usually specific to one shape and the angle tolerances are so narrow that only our dice work for this jewelry. However, some pieces can be used for more than one shape and these are noted by their picture. Dice Holder™ Jewelry comes in the same 4 1/8 x 2 3/4 clamshell packaging as our Ten d10™ sets, but is twice as thick (1 3/8”). We have included a die of special color style with each Dice Holder™. This exclusive special color die is not available separately. Dice Holder™ jewelry is available either with a neck chain or key chain (not pictured) attached.

Mini Polyhedral Dice Sets
A set of very small 10mm dice packed in a pegable clear plastic clamshell. How small? A 10 year old can hold them all in one hand with room to spare.

Light on table space? Want dice that make less noise when you toss them in your dice tower? Want a set of dice that'll fit easily in your pocket and have awesome “Squee-value” to boot? Then these Mini-Polyhedrals are the dice for you.

Size Comparison
The Chessex Standard™ Quality and consistency are the ultimate goals in making “The Coolest Dice on the Planet™”. At Chessex we are striving to bring uniformity of size, number marking and shape amongst our dice. Our goal is to give you the confidence of knowing that any Chessex die you purchase will always be of consistently high quality. In order to effectively meet this criteria, we have created The Chessex Standard™.

All of our dice are available in 4 types of sets:

- **d4**
  - All of our dice read from the top, making them easy to comprehend.

- **d6**
  - For ease in reading, we now use underscoring, rather than tiny indicator dots, to differentiate 6’s from 9’s.

- **d8**
  - All polyhedral dice have sharper edges for easier shape recognition.

- **d10**
  - All of our numbers are as large as possible on each face.

- **Tens 10™**
  - Rounded corners on our pipped dice enable the dice to tumble well on small surfaces, such as gameboards.

- **d12**

- **d20**

- **16mm d6 w/pips**

- **12mm d6 w/pips**

Each Ten d10™ set contains only d10s and is available in each style and color of dice we offer.

Each Polyhedral 7-Die Set includes one each of: 4-sided (d4), 6-sided w/numbers (d6), 8-sided (d8), 10-sided (d10 numbered 0-9), Tens 10™ (10-sided die numbered 00-90), 12-sided (d12) and 20-sided (d20). These sets are available in each style of material and color of dice we offer.

Each 16mm d6 w/pips Dice Block™ contains 12 of these d6s and are available in each style and color of dice we offer.

Each 12mm d6 w/pips Dice Block™ contains 36 of these d6s and are available in each style and color of dice we offer.

**WARNING!**
Choking Hazard
Dice are not intended for children under the age of 3 years.

www.chessex.com
Opaque Dice are made of a particularly dense material for a better feel when rolling. This material also allows for flatter faces and sharper edges. The wide variety of colors is also very consistent so that an opaque Chessex die from years ago will match those available today. These dice are very economical, at a fraction of the cost of other materials. The Opaque Dice Color Reference Pack is combined with the Translucent dice and is listed on page 8.

**2008-2015 Opaque & Translucent Dice Color Reference Pack**

This reference packet is a must for inventory and ordering purposes. This packet consists of one 16mm d6 with pips of each of all 15 colors of the Opaque and 9 colors of Translucent dice, each labeled with their name. On the backside is a chart with the color names and stock numbers of each available type of set (Ten d10™ set, Polyhedral 7-die set, 12mm d6 Dice Block™, and 16mm d6 Dice Block™).
Speckled Dice have been a popular color range for the past two decades. Speckled dice are made with the same material as the opaque dice resulting in a good shape and feel during use.

2015 Gemini™ Dice Color Reference Pack . . . CHX 29957
A must for inventory & ordering purposes. This packet consists of one 16mm d6 with pips of each of all 26 colors of the Gemini”, each labeled with their name. On the backside is a chart with the names and stock numbers of each type of set.
Signature™ Dice are a compilation of the best selling colors of new dice we have released in past years. Over time, this range of colors has become our signature dice color range, thus the name.

2015 Signature™ Dice Color Reference Pack...CHX 29976
This reference packet includes one
16mm d6 w/pips of each of all the
26 colors of our
Signature™ dice,
each one labeled
with their name. On
the backside is a
chart with the color
names and stock
numbers of each
type of set that is
available.
Keeping-in-Stock Dice (KIS) As we create new colors, some sell exceedingly well and are incorporated into the Signature™ range. Others don’t sell as well and get discontinued. The remaining colors sell well enough to become our Keeping-in-Stock dice.

- **Borealis™ Magenta w/gold**
  - Polyhedral Ten d10® Set... CHX 27224

2015 KIS Dice Color Reference Pack CHX 29947
Includes one of each of all the 26 colors of our Keeping-in-Stock (KIS) dice, each labeled with their name. On the back is a chart with the color names & stock numbers of each type of set available.
Dice Set Samplers are designed with the retailer in mind. Samplers greatly reduce confusion and frustration when ordering a good selection of “The Coolest Dice on the Planet.” We offer two types of set samplers: the “Best of Chessex” and the “Box of 50.” Samplers are an easy way to get started – the mix of colors is weighted in favor of the better sellers to reduce costly and unwanted overstock.

Best of Chessex Samplers: These contain one each of our best selling dice in either Polyhedral 7-Die Sets, 12mm d6 w/pips Dice Block", or 16mm d6 w/pips Dice Block". We recommend these for a quick and easy way to carry a selection of our best colors without the hassle of ordering the sets individually. One set in each sampler is included free.

Chessex “Box of 50” These samplers each contain 50 Polyhedral 7-Die Sets from the Opaque, Speckled, Translucent, Signature™, or Gemini™ ranges. The mix of colors in each sampler is weighted in favor of the most popular colors, making it also a quick and easy way to carry a large quantity of our polyhedral dice sets. Two sets in each sampler are free.

Loose Dice Samplers are a unique system for stocking individual loose dice. For each of the five ranges of dice we carry on a continual basis, we offer Loose Dice Samplers and refill “Bags of 50.” When the quantity of any shape gets low in the Loose Dice Sampler, purchase the appropriate Bag of 50 to replace it. The mix of dice in these products is fixed and based on sales; the better their sales rate, the more are included. This means there is little chance that you will be left with many of slow selling colors, unlike what can happen if you buy assortments which follow no set mixture.

Each sampler contains the following assortment of dice*: 50 d4's, 54 d6 w/'#'s, 50 d8's, 100 d10's, 50 Tens 10', 50 d12's, 56 d20's, 128 12mm d6 w/pips, 54 16mm d6 w/pips, 1 CHX 29900 (empty tray), and 1 Corresponding Dice Color Reference Packet.

Loose Dice Assortments are for those who only want polyhedral dice and in lower quantities than the Loose Dice Samplers. These assortments are packaged in versatile clear clamshells that can be used for display. The 125 dice always have the following mix of shapes: 8-d4, 18-d6 w/'#'s, 9-d8, 33-d10, 8-Tens 10', 8-d12, and 41-d20's.

Bags of 50™

**Speckled Loose Dice Sampler also includes 5 assorted 34mm d20s.**
Specialty Dice

Chessex offers many types of Specialty Dice to fulfill specific gaming needs.

**Speckled 34mm d20s**

Shimmer Purple w/ gold d30 . . . XH3017

**Ankh d10**

CHX XM1545
single Ankh d10

**Metal-Plated 6-Sided Dice**

These are plastic dice with metal-plated finishes. Each set contains a pair of dice.

**Cancelled Casino Dice**

These dice were made to be within 1/1000" of being a perfect cube and were once on the craps table of a casino. After their use, they have been marked (or cancelled) so they cannot go back. Each set contains 2 of these “precision” dice.

**Pound-O-Dice™**

Looking for an inexpensive way to increase your dice collection? The Pound-O-Dice is the perfect solution! Each pound has approximately 100 dice in assorted shapes with quantities weighted in favor of d6’s, d10’s, and d20’s. Also included is a full set (7) of polyhedral dice in one of 5 colors, randomly selected, that are only available in this product. The Pound-O-d6 is a one pound assortment of approximately 100 6-sided dice with pips.
Cheat Dice

Cheat Dice are a must for those looking to increase their odds. Each set has seven dice: two d20’s, two d10’s and three d6’s. One d20 is numbered normally but the other has two 20’s and no 1’s. One d10 is numbered normally and the other has two 0’s and no 1’s. One of the d6 is numbered normally, another has two 1’s with no 6’s, and the last one has two 6’s with no 1’s. Use the normal die for most rolls and swap out the cheat dice to increase your odds for those really important rolls!

Black .................. CHX 02398
Dice have long fascinated people. It’s no secret. With the advent of plastic dice molding, people have clamored for something more than dice with standard numbering: symbols, runes, icons...you name it, there’s probably someone who wants it.

The problem in the past for these “custom” dice has always been the price of the molding. Small production runs do not even come close to recapturing the up-front costs. The alternative to molding custom dice is printing and silk-screening, methods that produce good images but which wear away over time. Also, the set-up fees for artwork can financially kill small projects from the start. These factors have long limited the manufacture of custom dice.

What has been desperately needed is a manufacturing solution that encompasses the following parameters: short production times, low set-up costs, high detail, and permanent images. We have perfected an elegant engraving method to fulfill these requirements and when used in combination with our wide range of great dice colors, satisfaction is a sure thing.

Some Uses for Our Custom Engraved Dice:
• Promotional and business card dice.
• Replace specialty dice with better artwork.
• Replacement of lost dice.
• Keepsake/Memento dice for events such as conventions, weddings, graduations, and birthdays.
• Prototype dice for game designs.

Features of Our Engraving Process:
• Our dice are engraved and not printed, resulting in durable designs that will not rub away.
• No set-up fee for artwork.
• A sample die can be quickly generated and a photo sent electronically for approval.
• Low minimum, order as few as 10 dice.
• Multiple dice colors per engraving possible.
• High amount of detail.
• Quick turn-around time on all orders.
• Wide range of our unique colors.
• Engraving available on polyhedral dice other than 6-sided dice.

Current Capacity:
• We engrave both text and graphics (line art is preferable).
• We currently have 6-sided dice with a blank ‘1’ side in 16mm, 19mm, 30mm, and 50mm available in many colors.
• We currently have 6-sided dice with a blank ‘6’ side in 16mm and 50mm available in many colors.
• 10-sided dice with a blank ‘0’ side.
• Polyhedral dice (4-sided, 6-sided, 8-sided, 10-sided, 12-sided, and 20-sided) blank on all sides available for total custom engraving.

Future Expanded Capacities:
We are continuously working to widen our scope of capabilities in order to produce custom engraved dice in greater varieties and quantities. This includes more dice shapes and sizes we can engrave upon and greater range of dice colors.

For pricing, please contact us or go to www.chessex.com and look under custom dice. To ask for sample die to be made or other inquiries, e-mail us at:

custom@chessex.com.

NOTE: All custom dice are shipped from the USA.
